ABOUT THE LOGO

The logo is an amalgamation of the mission, vision and values that the school aims to achieve and inherit within their students and each and every person who will be a part of it.

The pencil here symbolizes education which turns into increasing number of children pointing out to the power of education, that if one person of a family or a group is educated he/she can be a source of motivation and inspiration to the others. Hence, being the epitome of Nelson Mandela's quote "Education is the most powerful weapon which you can use to change the world".

The colors used in the logo are violet, red, blue and yellow, each explaining the meaning of education that the institute wants to impart at every step that it takes.

- Violet symbolizes dreams and aspirations of the students referring to the role of the institution in realizing their dreams.

- Red has a very powerful symbolization, signifying strength, referring to the education being the most powerful tool for change and learning of values.
- Blue here refers to freedom. Firstly, the freedom that education helps to achieve in life and secondly, the way education helps in understanding the true and right meaning of freedom. It also refers to the source of inspiration which helps in increasing number of people who start understanding the importance of education and making efforts to inspire others in return.
- Yellow is a very lively color being a symbol of hope here. The institution wants to bring hope for a better tomorrow in the heart of every student that joins it, spreading the message of keeping your hopes high and never giving up.

So, the logo along with being a powerful representation of the importance of education for one and all, presents its mission and vision of realization of dreams, powerful tool of change, freedom of expression, source of inspiration and hope to learn from your failures and strive for a better future.
